INTERNSHIP

Video Yantra Solutions

Dec 2024- Jan2025

Video processing Intern

- Worked on video processing using **GStreamer** in a peer-to-peer **Client-server** setup.
- Managed **WebRTC Signaling** for session setup and integrated it with GStreamer elements for media negotiation.
- Developed real-time video streaming solutions .
- Implemented efficient media pipeline management techniques.

PROJECTS

1. Smart Workforce Management System

Project | Web Development, WebSocket API, Real-Time Alerts

Implemented a dynamic worker status monitoring: if a worker is absent, the UI updates instantly (color change and "Absent" status), and another skilled worker is auto-assigned based on task requirements. Integrated a Fire Alert System using **WebSocket API** to trigger emergency alerts across the dashboard for immediate evacuation.

2. AI Integrated Fake News Detector System

Built a machine learning model to classify news as real or fake using ML techniques and trained it on labeled datasets for accurate detection.

Trained models on labeled datasets, achieving high accuracy in fake news detection.

SKILLS

- Python
- Java
- SQL
- HTML,CSS
- Gstreamer
- Data Structures and Algorithms
- Webrtc
- OOPS

CERTIFICATIONS

- Foundation in Data Science (IIT Madras)
- Kaggle AI/ML Challenge
- Database Management System - Science Graduates
- Infy springboard Power BI Data Analytics
- Programming challenge-IITM
- Web development concepts- SkillSoft
- Udemy-Java Course

EDUCATION

Easwari Engineering College-Chennai

B.E Computer Science and Engineering - 8.71 CGPA

2022- 2026

Data Science Online BS Degree -IIT Madras

Completed the Foundation level and currently pursuing the Diploma in Data Science with an aggregate of 8.0 GPA. Successfully completed 12 courses, earning a total of 36 credits.

2022-
Present

Padma Seshadri Bala Bhavan Senior Secondary School

10th CBSE -93.20% 12th CBSE -93.00%

2007-2022
